

Selena M Garcia

I am a full-stack web developer with a strong foundation in building dynamic and responsive web applications using React, Typescript, HTML, and CSS. Committed to continuous learning, I am eager to contribute to innovative projects and collaborate with other developers to create impactful web solutions.

TECHNICAL SKILLS

- + **APIs:** REST, GraphQL, Apollo GraphQL
- + **Authentication:** JSON Web Tokens (JWT)
- + **Back-End:** Node.js, Express, PostgreSQL, MongoDB
- + **CICD:** Github Actions
- + **Deployment:** Netlify, Render, MongoDB Atlas
- + **Front-End:** HTML, CSS, JavaScript, TypeScript, React, Vite, Bootstrap
- + **ORMs & ODMs:** Sequelize, Mongoose
- + **Version Control:** Git, GitHub, Gitlab

EDUCATION

2014

ST. PHILIPS COLLEGE – Phlebotomy Program

- + ASCP Board Certified

2018 – Spring 2023

TEXAS A&M - SAN ANTONIO

- + Bachelor's degree in History with a focus on education
- + GPA – 3.32

June 2024 – Dec 2024

UTSA CODING BOOTCAMP - CERTIFICATE

An intensive, full-stack web development bootcamp where I gained hands-on experience with modern web technologies, tools, and best practices.

EXPERIENCE

2013 - 2015

ITT TECHNICAL INSTITUTE – Front Desk Administrator

2015 - 2021

CLINICAL PATHOLOGY LABORATORIES – Phlebotomist

- + Performed specimen collection procedures for geriatric, pediatric, and adult patients
- + Managed inventory, organized supplies, and maintained laboratory logbooks
- + Trained new employees and adapted to multiple locations and workflows
- + Ensured compliance with HIPAA and OSHA regulations

June 2024 – Dec 2025

UTSA CODING BOOTCAMP

- + **Front-End Development:** Built responsive and dynamic user interfaces using HTML, CSS, JavaScript, React, TypeScript, and Bootstrap.
- + **Back-End Development:** Developed server-side applications with Node.js and Express.
- + **Databases:** Designed and managed relational and non-relational databases using **PostgreSQL** and **MongoDB**.
- + **APIs:** Created and consumed RESTful APIs and GraphQL APIs with Apollo GraphQL.
- + **Version Control:** Managed code effectively using Git and GitHub.
- + **Deployment:** Deployed applications to platforms like Netlify, Render, and GitHub Pages.
- + **Authentication:** Implemented secure authentication using JSON Web Tokens (JWT).
- + **Project Development:** Collaborated on team projects, applying agile development methodologies to build full-stack applications.
